

# TRIFA LAMPS GERMANY

## 93 JAHRE TRIFA: EINE LOKALE UND GLOBALE ERFOLGSGESCHICHTE

Gegründet 1929 als Familienunternehmen in Thüringen von Max Ludwig und seit 2020 mit Firmensitz im pfälzischen Hauenstein, ist Trifa heute ein global agierendes Unternehmen. Mit langjähriger Expertise sowohl in der Herstellung als auch im Vertrieb von Kraftfahrzeug- und Nutzfahrzeug-Glühlampen sind wir zuverlässiger Partner der Automobilindustrie sowie namhafter Leuchten- und Scheinwerferhersteller. Wir liefern innovative Produkte in 80 Länder, auf 5 Kontinente. Mit dem Blick stets nach vorne setzen wir schon heute die Standards von morgen – und sorgen mit neuesten Technologien für beste Sicht und damit erhöhte Sicherheit im Straßenverkehr.

## UNSERE PRODUKTE: MAXIMALE LEUCHTKRAFT FÜR IHR FAHRZEUG

Mit einem breiten Produktspektrum bietet Trifa genau die Fahrzeug-Glühlampe, die Ihren Anforderungen entspricht. Zum Beispiel die effiziente SUPER LONG LIFE, mit 3-mal längerer Lebensdauer und hervorragendem Kosten-Nutzen-Faktor oder die leistungsstarke PRIME +120 %, die für bis zu 120 % mehr Licht sorgt.

## UNSER ERFOLGSREZEPT: QUALITÄT GEHT VOR

### Nachhaltigkeit und Umweltschutz werden großgeschrieben

Wir liefern bleifreie Produkte, und unsere Forschungsabteilung entwickelt kontinuierlich zukunftsorientierte, umweltschonende Produkte für eine saubere Umwelt von morgen. Auch bei unseren Verpackungen achten wir darauf, dass diese wieder verwertbar und unterschiedliche Verpackungsmaterialien wieder leicht trennbar sind.

### Wir halten uns daran

Höchste Qualität für unsere Kunden ist das Ziel unseres Unternehmens. Ein Qualitätsmanagement nach DIN EN ISO 9001:2015 ist für uns daher genauso wichtig wie die Einhaltung gesetzlicher Normen und Richtlinien. Auch eine reibungslose Auftragsabwicklung – von der Forschung und Entwicklung bis hin zur Fertigung – gehört zu unserem Qualitätsversprechen.

### REACH-Regulation EC 1907/2006: Frei von Chemikalien

Wir und unsere Lieferanten achten darauf, dass unsere Lampen der EU-Altautoverordnung RoHS 2000/53/EG entsprechen. Zudem sind die in den Verpackungen verwendeten Rohstoffe gemäß REACH registriert und enthalten keine besorgniserregenden Stoffe.

### Nichts geht ohne Logistik

Durch die Anschaffung spezieller computergesteuerter Hochregal-Lagersysteme wird unsere Logistik und Lagerhaltung in Windhof/LU kontinuierlich verbessert. Dies ermöglicht eine wirtschaftlichere und effizientere Kommissionierung.

Sie möchten mehr über Trifa und unsere innovativen Kraftfahrzeug- und Nutzfahrzeug-Glühlampen erfahren?

Wir freuen uns, von Ihnen zu hören!

## 93 YEARS OF TRIFA – A LOCAL AND GLOBAL SUCCESS STORY

Founded in 1929 as a family business in Thuringia by Max Ludwig, with headquarters in Hauenstein in the Palatinate region since 2020, Trifa today is a global company. With our many years of expertise in manufacturing and marketing vehicle and commercial vehicle bulbs, we are liable partners for the automotive industry and a leading light and headlamp manufacturer. We supply innovative products in 80 countries on 5 continents. Constantly looking ahead to the future, we set the standards of tomorrow, today – our cutting-edge technologies ensure optimum visibility and thus increased road safety.

## OUR PRODUCTS – MAXIMUM LUMINOSITY FOR YOUR VEHICLE

With its wide range of products, Trifa offers exactly the vehicle lamp for your needs. For example, the efficient SUPER LONG LIFE, with a service life that is three times longer and having an outstanding cost-benefit factor; or the high-performance PRIME +120 %, which delivers up to 120 % more light.

## OUR RECIPE FOR SUCCESS – QUALITY COMES FIRST

### Sustainability and environmental protection are top priorities

We supply lead-free products and our research department is committed to the ongoing development of future-orientated, eco-friendly solutions to provide a clean environment for the future. We also ensure that our packaging can be recycled and that different packaging materials can be separated easily.

### Our firm commitment

Our company is committed to delivering premium quality for our customers. Quality management according to DIN EN ISO 9001:2015 is therefore just as important to us as complying with legal standards and directives. Smooth order processing – from research and development to production – is also part of our quality pledge.

### REACH Regulation EC 1907/2006 – free of chemicals

We and our suppliers ensure that our lamps are subject to and comply with the EU RoHS End-of-Life Vehicle Directive 2000/53/EC. Also the raw materials used for our packaging are registered corresponding to REACH and do not contain any concerning substances.

### Logistics are indispensable

Our logistics and warehousing in Windhof/LU are continuously enhanced through the acquisition of special computer-controlled high-bay storage systems, enabling more cost-effective and efficient order picking.

Want to find out more about Trifa and our innovative vehicle and commercial vehicle lamps?

We look forward to hearing from you!

## 93 ANNEES TRIFA: UNE HISTOIRE DE REUSSITE LOCALE ET MONDIALE

Fondée en 1929 en Thuringe par Max Ludwig comme une entreprise familiale et le siège social se trouvant à Hauenstein, Rhénanie-Palatinat depuis 2020, aujourd’hui la société TRIFA est une société mondiale. Avec des années d’expertise non seulement dans la fabrication mais aussi dans la distribution des lampes pour les véhicules automobiles et utilitaires, nous sommes un partenaire fiable pour l’industrie automobile et pour des fabricants renommés de luminaires et de projecteurs. Nous fournissons des produits innovants dans 80 pays sur 5 continents. Le regard toujours vers l’avant, nous fixons déjà aujourd’hui les normes de demain – et par la dernière technologie nous assurons une meilleure visibilité et donc une sécurité routière améliorée.

## NOS PRODUITS: LUMINOSITE MAXIMALE POUR VOTRE VOITURE

Avec une large gamme de produits TRIFA vous offre exactement la lampe automobile qui correspond à vos besoins. Par exemple, l’ampoule efficace SUPER LONG LIFE, qui possède jusqu’à trois fois plus de durée de vie par rapport à une lampe standard, avec un excellent facteur coût-bénéficiaire; ou la lampe puissante PRIME +120 permettant jusqu’à 120% de lumière en plus

## NOTRE RECETTE DE SUCCES: LA QUALITE EST PRIORITAIRE

### Durabilité et protection de l'environnement sont essentielles

Nous fournissons des produits sans plomb, et notre service de recherche développe continuellement des produits innovants et respectueux de l’environnement pour le milieu propre de demain. Concernant nos emballages nous faisons attention à ce qu'ils soient recyclables et différentes matières d'emballage sont facilement séparables.

### La qualité – nous la suivons strictement

Le maximum de qualité pour nos clients est l’objectif de notre entreprise. Le management de qualité selon DIN EN ISO 9001:2015 est autant important que l’observation des normes et règles judiciaires. De même, la gestion parfaite des commandes - à partir de la recherche et du développement jusqu'à la production – fait partie de notre promesse de qualité.

### Règlement REACh EC 1907/2006: produits sans chimique

Nous-mêmes ainsi que nos fournisseurs veillons à ce que nos lampes soient conformes à la Directive européenne concernant les voitures anciennes RoHS 2000/53/EG. De plus, les matières premières utilisées dans les emballages sont enregistrées selon REACh et ne contiennent pas de substances inquiétantes.

### Il n'y a rien sans logistique

Grâce à l’acquisition de systèmes spécifiques de rayonnage en hauteur gérées par ordinateur, notre logistique et entreposage à Windhof/LU sont constamment améliorés. Ceci permet une mise en service plus économique et plus efficace.

**Vous voulez en savoir plus sur TRIFA et nos lampes innovantes pour les véhicules automobiles et utilitaires ?**

**Nous serons heureux de vous entendre !**

## TRIFA: 93 ANOS DE HISTORICA Y ÉXITO LOCAL Y GLOBAL

La empresa familiar TRIFA fué fundada en 1929 por Max Ludwig en Thüringen y está establecida desde 2020 en Hauenstein, en el palatinado. Hoy en día es TRIFA una empresa que opera a nivel mundial. Nuestra gran experiencia tanto en la producción como en la venta de lámparas para automóviles y vehículos industriales nos hace ser un socio ideal y confiable en la industria automovilística y un fabricante famoso de bombillas y faros. TRIFA distribuye sus productos a 80 países en los 5 continentes. Con la visión siempre en el futuro, podemos garantizar hoy las exigencias del mañana, aportando, gracias a la nueva y moderna tecnología una mayor visibilidad y seguridad en el tráfico automovilístico.

## NUESTROS PRODUCTOS: MÁXIMA LUMINOSIDAD PARA SU VEHÍCULO

Con una gran gama de productos ofrece TRIFA las lámparas y bombillas adecuadas para todo tipo de vehículos. Por ejemplo: la SUPER LONG LIFE, super eficiente, con una durabilidad 3 veces mayor y con una óptima relación precio-rendimiento ó la PRIME +120%, con su gran potencia ofrece 120% más de luminosidad.

## NUESTRA RECETA PARA EL ÉXITO: CALIDAD

### Protección del medio ambiente

Nuestros productos son libres de plomo y nuestro equipo de científicos e investigadores trabajan continuamente en el desarrollo de nuevos productos para satisfacer las demandas del mañana protegiendo al medio ambiente. La adaptación continua a las exigencias del medio ambiente se refleja también en el embalaje. Estos materiales deben ser de preferencia reciclables. El nuevo empaque individual está compuesto de diferentes tipos de materiales, que se pueden separar fácilmente para el reciclaje.

### Calidad garantizada

Ofrecer la máxima calidad a nuestros clientes es el objetivo principal de nuestra empresa. Una prueba muy importante de nuestra calidad de trabajo es la certificación bajo la norma DIN EN ISO 9001:2015 y también todas las gestiones basadas en el cumplimiento de las normas legítimas y de las leyes vigentes. La Garantía de Calidad no es solamente el trámite de pedidos sin contratiempos, sino también la vigilancia sistemática de todos los pasos desde la investigación y el desarrollo hasta la fabricación de nuestros productos.

### REACh-Regulation EC 1907/2006: Libre de productos químicos

La empresa y sus distribuidores aseguran que nuestras lámparas se fabrican conforme a las directrices de la EU RoHS 2000/53/EG. Igualmente que las materias primas del embalaje están registradas bajo las leyes vigentes, evitando así el uso de materias primas prohibidas.

### La Logística es indispensable

La nueva adquisición de un sistema moderno de almacenamiento de estantes altos regulados por computadora, han mejorado la logística y el almacenamiento en Windhof/LU. La distribución es mucho más eficiente y económica.

**Tiene interés de saber más sobre TRIFA y sus innovaciones en lámparas para la industria automotriz y vehículos industriales?**

**Nos dará mucho gusto recibir sus mensajes!**

02003 a) 1)		35W	P32d-5	D4S	D4S	10	1
02007 a)		35W	P32d-6	D4R	D4R	10	2

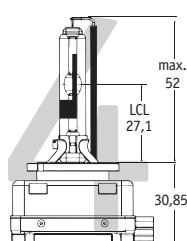

- Gasentladungslampen basieren auf einer anderen Technik als normale Halogenglühlampen. Durch eine elektronisch gesteuerte Gasentladung erzeugt diese Lampe einen sehr hellen Lichtbogen.
- Mit diesem Lichtbogen bringen sie erheblich mehr Lichtwirkung bzw. eine deutlich bessere Ausleuchtung auf die Straße.
- Sie erkennen Gefahren, Hindernisse oder Beschilderungen frühzeitig und können entsprechend reagieren.
- Diese Lampen besitzen mit bis zu 4.200 Kelvin eine dem Tageslicht ähnliche Farbtemperatur als konventionelles Halogenlicht (3.200 Kelvin).
- Beachten Sie, dass diese Lampen aufgrund der Hochspannung nur von autorisierten Fachwerkstätten ausgetauscht werden dürfen.

- Gas discharge lamps are based on a technology that differs to that of a regular halogen lamp. Through an electronically-controlled gas discharge, this lamp generates a very light arc.
- With this arc, these lamps produce a much higher luminous effect and a considerably better illumination of the street.
- You recognize hazards, obstacles and signs much further in advance and are able to react accordingly.
- These lamps measure with up to 4,200 Kelvin a color temperature more similar to that of daylight than conventional halogen lamps (3,200 Kelvin).
- Please note that due to their high voltage, these lamps may only be exchanged by an authorized workshop.

- Les lampes à décharge gazeuse sont basées sur une autre technique que celle des lampes à halogène ordinaires. Suite à une décharge gazeuse à commande électronique, cette lampe produit un arc très clair.
- Cet arc lumineux vous donne une clarté bien meilleure, voire éclaire nettement mieux la route.
- Ainsi, vous voyez les dangers, les obstacles ou les panneaux de signalisation suffisamment tôt, ce qui vous permet de réagir correctement.
- Ces lampes ont jusqu'à 4.200 Kelvin, une température de couleur la plus semblable à la lumière du jour comme luminosité halogène conventionnelle (3.200 Kelvin).
- Tenez compte du fait qu'en raison de la haute tension, seuls des garages autorisés peuvent remplacer ces lampes.

- Las lámparas de descarga gaseosa se basan en una técnica diferente a la de las lámparas incandescentes de halógeno. Por medio de una descarga de gas electrónicamente controlada, esta lámpara produce un arco de luz bien claro.
- Con este arco de luz, Vd. logra alcanzar una mayor eficacia lumínica, o sea, un alumbrado de carretera considerablemente mayor.
- Vd. reconoce a tiempo peligros, impedimentos o señalizaciones y puede reaccionar correspondientemente.
- Estas lámparas, con hasta 4.200 Kelvin, tienen una temperatura de color similar a la de la luz diurna en comparación con la luz halógena convencional (3.200 Kelvin).
- Por favor tenga en cuenta que, debido a la altatensión, estas lámparas deben ser cambiadas sólo por talleres especializados que estén autorizados para ello.

### Die Xenonlampe für Fahrer mit dem Wunsch nach intensivem Weiß

- auf und neben der Straße bis zu 5.000 Kelvin
- bis zu 50% bessere Ausleuchtung gegenüber der Xenon-Standard
- Vorteil besonders bei langen Nachtfahrten
- beachten Sie, dass diese Lampen aufgrund der Hochspannung nur von autorisierten Fachwerkstätten ausgewechselt werden dürfen

### The Xenon bulb for drivers wishing an intense white

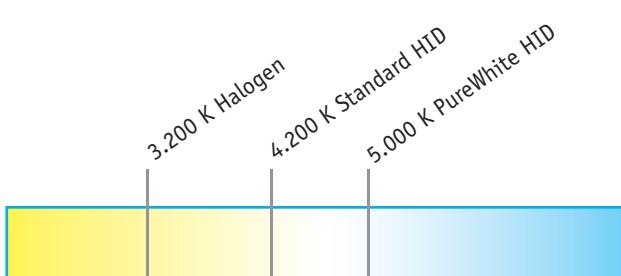

- up to 5,000 Kelvin on and off the road
- up to 50% better illumination compared to the Xenon standard bulb
- special advantage in case of long nighttime journeys
- please note that due to their high voltage, these lamps may only be exchanged by an authorized workshop

### Les ampoules Xenon pour conducteurs souhaitant une lumière blanche intense

- jusqu'à 5,000 Kelvin sur route et «off road»
- jusqu'à 50% de lumière en plus d'une ampoule Xénon standard
- spécialement confortable pour les longs voyages de nuit
- veuillez noter qu'en raison de leur haute tension, l'échange de ces ampoules se fait exclusivement par un atelier agréé

### La lámpara Xenon para conductores con el deseo de una luz blanca intensiva

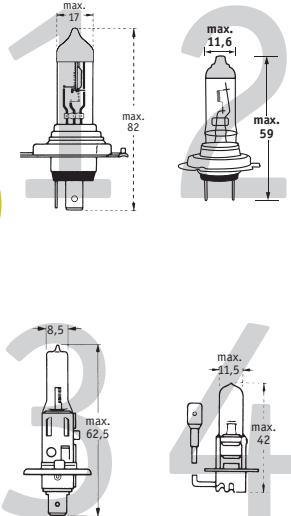

- hasta 5.000 Kelvin sobre la calle y a la orilla de la calle
- hasta un 50% de mayor iluminación en comparación con la Xenon estandar
- más ventajas principalmente en viajes nocturnos largos
- tenga en cuenta que debido a la alta tensión de estas lámparas, estas sólo pueden ser cambiadas en talleres especializados

### Die Lampe für jedes Wetter

- Unsere Season Halogenglühlampe unterstützt Sie bei allen Witterungsbedingungen.
- Ob bei Regen, Nebel oder Schnee: Sie haben bessere Sicht.
- Durch die Interferenzbeschichtung entsteht ein leicht gelbliches Licht.
- Durch die Verringerung unangenehmer Reflexionen sehen Sie die Konturen weiter entfernter Dinge besser.
- Ohne Lichtverlust erhalten Sie ein deutliches Plus an Sicherheit.

### The bulb for every weather

- Our Season halogen lamps support you in all weather conditions.
- Whether it is raining, foggy or snowing, you will always have better visibility.
- The lamp's interference coating produces a light yellowish light.
- By reduction of unpleasant reflections you have a better view of the outlines of objects in the distance.
- You therefore receive a considerable safety advantage without losing any light.

### La lampe pour chaque temps

- Notre lampe à halogène Season vous assiste dans toutes les conditions météo.
- Que ce soit en cas de pluie, de brouillard ou de neige : vous voyez nettement mieux.
- Le revêtement d'interférence confère à la lumière une note jaunâtre.
- Il y a moins de réflexions désagréables et en même temps, vous voyez les contours au loin nettement mieux.
- Sans aucune perte de lumière, vous gagnerez un plus de sécurité.

### Lámpara para todo tiempo

- Nuestra lámpara halógena Season le apoya en todas las condiciones meteorológicas.
- Sea lluvia, niebla o nieve: Vd. tiene una mayor visibilidad.
- Debido al recubrimiento de interferencia, resulta una luz ligeramente amarillenta.
- Resultan menos reflexiones desagradables y al mismo tiempo, Vd. ve mejor los contornos de objetos más lejanos.
- Sin pérdida de luz, Vd. recibe una clara ventaja de seguridad.

Unsere PRIME-SERIE bietet Ihnen durch eine spezielle Wendelgeometrie und Gasfüllung folgende Vorteile

- bessere Ausleuchtung der Straße
- erhöhte Sicherheit durch geringere Ermüdung und besseres Reaktionsvermögen
- bis zu 30% oder 50% mehr Licht gegenüber der Standardlampe
- zugelassen nach ECE R37 Germany (E1)

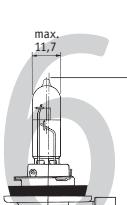

Our PRIME range by the use of special filament geometry and gas fill offers the following advantages:

- better road illumination
- increased safety due to less fatigue and better responsiveness
- up to 30% or 50% more light compared to the standard lamps
- approved according to ECE R37 Germany (E1)

Grace à la géométrie spécifique de son filament ainsi que du remplissage de gaz, notre gamme PRIME offre

- meilleure éclairage de la route
- sécurité accrue grâce à moins de fatigue et une meilleure réactivité
- jusqu'à 30 % ou 50 % de plus de luminosité comparé aux ampoules standard
- approuvé selon la norme ECE R37 de l'Allemagne (E1)

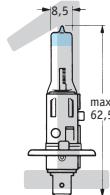

Nuestra serie PRIME le ofrece a través de una espiral geométrica especial y llenado de gas las siguientes ventajas

- mejor iluminación de la calle
- mayor seguridad debido a un cansancio mínimo y una mejor capacidad de reacción
- hasta un 30% ó 50% de más luz en comparación con la lámpara estandar
- autorizada según la directriz ECE R37 Germany (E1)

Die **CDL-Serie** wurde für den Einsatz als Tagfahrleuchte konzipiert,  
mit einer bis zu 2x längeren Lebensdauer gegenüber der Standardlampen bei gleichbleibender Leistung.

The **CDL-series** was designed for the application as daytime running light,  
with up to double the service life of standard lamps without reducing their power.

La **série CDL** a été conçue pour une utilisation de feux de position en journée,  
avec une durée de vie doublée comparée aux ampoules standard sans réduction de puissance.

La **serie CDL** fué concebida para el uso diurno con una larga duración  
de hasta 2 veces más en comparación con la lámpara estándar bajo constante rendimiento.

**Halogenscheinwerferlampen | Halogen headlamp bulbs  
Lampes halogènes pour phares | Lámparas halógenas**

### Unsere Dauerbrenner - Super Long Life

- bis zu 3-mal längere Lebensdauer gegenüber der Standardlampe
- somit 3-mal weniger Lampenwechsel
- dadurch eine bessere Ökobilanz

### Our Long Runner – Super Long Life

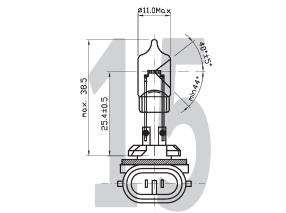

- up to triple the service life of standard lamps
- thus 3 times fewer lamp changes
- thus a better ecological balance

### La gamme Long Runner – Super Long Life

- jusqu'au triple de la durée de vie de l'ampoule standard
- 3 fois moins de changement d'ampoules
- meilleur préservation de l'environnement / équilibre écologique

### Nuestra lámpara permanente - Super Long Life

- con una duración de hasta 3 veces más en comparación con la lámpara estandar
- de esta manera 3 veces menos de cambio de lámparas
- de este modo un mejor balance ecológico

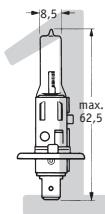

# NEW GENERATION TDL (TruckDayLight)

Tagfahrlicht-Lampen • Truck Daylight bulbs

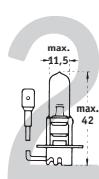

Ampoules pour conduite de jour • Lámparas para circulación de día

Art. Nr. Ref. No.	Volt Volts	Watt Watts	Sockel Base	Bezeichnung Description	ECE R37	SAE/DOT	VE / Stück Packing / pcs.	Bild Nr. Picture No.

## DIE 24V Lampe für extreme Anforderungen

- vibrationsbeständigere Lampenkonstruktion
- neue verstärkte Glühwendel
- dadurch weniger Ausfallzeiten und somit eine Hilfe für ein ökonomisches Fuhrparkmanagement

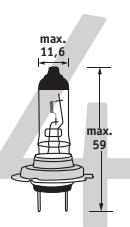

## THE 24V bulb for extreme demands

- lamp design for higher vibration resistance
- new reinforced filament
- thus less downtimes and consequently a support for an economical fleet management

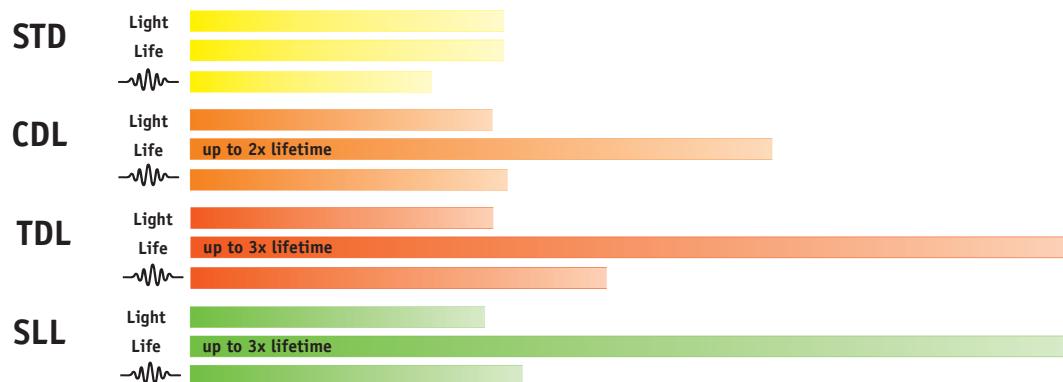

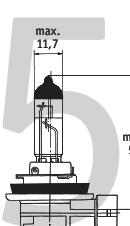

## LA gamme 24V pour les exigences extrêmes

- conception de l'ampoule étudiée pour une meilleure résistance aux vibrations
- nouveau filament renforcé
- ainsi moins de temps d'arrêt donc un support pour une gestion de flotte économique

## LA lámpara 24V para condiciones extremas

- lámpara diseñada para una resistencia mayor de vibraciones
- nueva espiral de lámpara reforzada
- de este modo menos perdidas de tiempo y así una administración más económica de flotas

# HEAVY DUTY

Die Alternative bei extremer Belastung für:

- LKW, Busse, PKW, Motorräder
- Baustellenfahrzeuge, Gabelstapler
- Wesentliche Vorteile und Sparen beim Fahren durch:
  - erhöhte Lebensdauer
  - deutlich weniger Lampenwechsel
  - geringere Standzeiten wegen defekter Lampen

The alternative in extreme conditions for:

- trucks, buses, cars, motor-bikes
- construction vehicles, forklift- trucks
- Essential advantages and savings when driving by:
  - longer service life
  - less changes of bulbs
  - less breakdowns because of defective bulbs

L'alternative en cas d'utilisation extrême sur:

- camions, cars et bus, voitures, motocyclettes
- véhicules de chantier, chariots éléveurs à fourche
- Les avantages économiques essentiels sont:
  - longévité accrue
  - moins de changements de lampes
  - pertes de temps minimisées dues à des lampes défectueuses

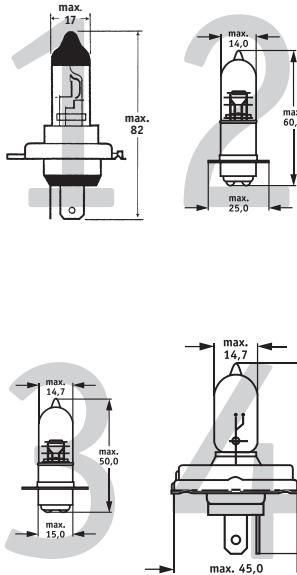

La alternativa en casos de carga extrema para:

- camiones, autobuses, coches, motocicletas
- vehículos para la construcción, carretillas elevadoras de horquilla
- Un ahorro y unas ventajas considerables a la hora de conducir gracias a:
  - mayor durabilidad
  - frecuencia mucha menor de cambio de lámparas
  - menos tiempo fuera de circulación a causa de lámparas estropeadas

| 14304                | P22d           | HB4 - 2 polig incl. 2x10cm 1.5 mm <sup>2</sup> | 5                       |

**Lampenfassungen zum Umrüsten und Nachrüsten**

- ausreichende Kabellängen zum einfacheren Verbinden
- für gängige Hauptscheinwerfer-Lampen
- platzsparend durch minimale Gehäuseabmessungen

**Bulb sockets for conversion and retrofitting**

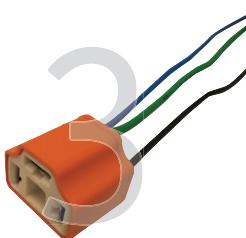

- sufficient cable length for easy connection
- uitable for all conventional headlamps
- space-saving due to minimum housing dimensions

**Douille de lampe pour conversion et adaptation / modernisation (retrofitting)**

- Longueur de câble suffisante facilitant la connexion
- adapté à toutes les ampoules halogènes standard
- économise de l'espace grâce aux dimensions minimales du boîtier

**Porta lámpara para equipar y rearmar**

- Cable suficientemente largo para una conexión más fácil
- para todos los faros habituales
- ahorro de espacio por sus dimensiones mínimas de caja
