## REACH – Regulation

Dear Sirs,

Products being delivered by TRIFA to you or other customers are not affected by the REACH – Regulation EC/1907/2006. Our lamps do not contain any chemicals or substances being purposely released during the use of the products.

Our bulbs are subject to the corresponding regulations of the EC – end-of-life vehicle directive 2000/53/EC and Regulation RoHS III 2011/65/EC.

As downstream user of our packaging we must not register these articles for REACH. But we have the confirmation of our supplier chain, that the REACH regulated substances, if used, have been registered. There are no substances used, containing article 33 of the REACH regulation according to the list updated 08.07.2021.

In case that we will import products from non – EC – countries which are subject to the REACH – regulation or produce such products ourselves we will register them according to the requirements.

Best regards  
TRIFA LAMPS GERMANY GmbH
